

MagicTouch

Flexible. Intuitive. Magical.

Introducing **MagicTouch**—an all new content-management-software that lets you easily create stunning multimedia presentations for all your touch screens. Let your visitors browse images, flip through publications, watch video or even interact with 3D renderings—all in one beautiful and intuitive touch interface. MagicTouch is the perfect extension to your physical exhibitions, enriching each with valuable information and engaging entertainment.

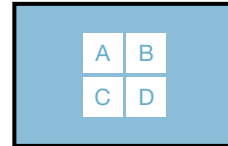

A game changer.

MagicTouch is incredibly simple to use. Just think of an exciting exhibition story, select interesting content and beautiful artwork, arrange it with MagicTouch and present it on your touch devices. MagicTouch automatically optimizes your material so your content looks and works great on all devices.

MagicTouch

✓	Covering a broad range of different media types and formats
✓	Simple-to-use interface to easily create beautiful presentations
✓	Enriching and interactive visitor experience
✓	Perfect for exhibitions, showrooms and reception areas
✓	Made in Germany

A bold complement.

Use the **MagicTouch Kiosk** to get the most from your MagicTouch software. MagicTouch Kiosk is a plug-and-play touch-screen solution for museums, showrooms and reception areas. It features a brilliant Full HD multi-touch display with a seamless all-glass surface and stereo sound. The display is available in sizes 32" and 42" and is powered by a high-performance Dell Precision Tower 3420 PC, NVIDIA Quadro 2 GB graphic board, 8 GB RAM, 256 GB SSD and Windows 7 Pro. The anodized aluminum pedestal comes in your color of choice to perfectly blend in with your exhibition design. MagicTouch Kiosk is your cost-efficient entry into the world of multimedia.
